NATHAN

PARCHMENT

PERSONAL PROFILE

I am a creative and unique person as demonstrated through creation of a 3D Model structure of the Krusty Krab and have the ability to create various websites types using HTML, JavaScript(JS), CSS and PHP. In the future, I aspire to be involved into all areas of multimedia specifically designing and structuring sites. The area of work would range from front/back-end developer, graphic designer and UX designer. If I were to be hired I would bring passion and commitment to my work and hope to expand said talents to the workplace.

PROJECTS

 - ⇒ | Understand MATLAB language
 - ⇒ | HTML , CSS and PHP
 - ⇒ | JavaScript
 - ⇒ | system evaluation
 - ⇒ | wire framing
 - ⇒ | object recognition
- Production:
 - ⇒ | composing video and motion graphics
 - ⇒ | animation graphics
 - ⇒ | tweening
 - ⇒ | storyboarding

HOBBIES

GAMING

- ⇒ My love for gaming began from when I was 6 years old with my first experience playing burnout on the dream cast. I also am fond on how games are created and love to watch videos on the back end of games production and development.

ANIMATION

- ⇒ Animation such as Samurai Jack, SpongeBob and One Punch Man are part of many of the animations that I love to watch, and due to this they've inspired me to plan and create my own animation project.

EDUCATION

- 2016—2019 BA (Hons) Digital Media Technology, Birmingham City University
Grade Achieved—2:1
Modules Include:
 - 3D Modelling and Animation
 - Multimedia Design and Graphics
 - Website Production
- 2014—2016 King Edwards VI Sheldon Heath Academy Sixth Form
 - Level 3 Diploma in Applied Science and IT: Distinction
- 2009—2014 King Edwards VI Sheldon Heath Academy
 - 8 B-C GCSE grades including Maths (C) and English (B)

EMPLOYMENT HISTORY

- 2015 – 2017 MORRISONS | Sales Assistant/Stock
 - ⇒ Improved customer satisfaction rates by 5% from base year (2015) as me and my colleagues worked together to provide great customer service and work well under pressure during busy periods.
 - ⇒ Regulating stock checks and re-stacking/ filling shelves helped build my organisational skills. Stock needed to be out within a certain amount of time to meet customer demands therefore making me more disciplined to meet deadlines whenever a task is given.
 - ⇒ I have picked up the skill of paying attention to detail as it's important especially within retail, Mangers will ask about certain products to be checked before being scanned through and customer will ask for price checks as items can be mislabelled at times.
- 2019 — Birmingham Impact FC | U10 's Coach Volunteer
 - ⇒ Talking to younger children requires great communication and speaking clearly is needed so that instructions given are understood.
 - ⇒ Come up with new fresh training drills to push their footballing skill level and aid their engagement.
- 2019 — Amazon Fulfillment Centre | Sort and Receiving
 - ⇒ My communication has improved a vast amount as it is a vital skill to have within a warehouse, as items can be damaged, people may be injured, conveyor belts may become jammed and managers need to be alerted for all of this plus many more.
 - ⇒ I have become a more efficient worker as I have been averaging 100% scan rate since starting. Amazon push this rate for all workers, Coventry Amazon fulfillment centre broke the record for 1 million products received and distributed in a week period.
