NATHAN

PARCHMENT

PERSONAL PROFILE

Creative, enthusiastic and energetic digital media graduate seeking a breakthrough opportunity in Front end development. Competent at developing online platforms and using HTML, JavaScript (JS), CSS and PHP to publish engaging and informative content within a smooth user experience. My web portfolio demonstrates further examples of these technical skills along with my passion and commitment, which I hope to expand on throughout my career.

PROJECTS

- ⇒ Cross Browser Development
- ⇒ Testing and Debugging

- Other Computing Skills:

- ⇒ Adobe illustrator
- ⇒ Adobe Photoshop
- ⇒ Maya3D
- ⇒ Adobe XD (Learning)
- ⇒ Brackets (Code Editor)

HOBBIES

GAMING

- ⇒ My love for gaming began from when I was 6 years old with my first experience playing burnout on the dream cast. I also am fond on how games are created and love to watch videos on the back end of games production and development.

ANIMATION

- ⇒ Animation such as Samurai Jack, SpongeBob and One Punch Man are part of many of the animations that I love to watch, and due to this they’ve inspired me to plan and create my own animation project.

EDUCATION

2016—2019 BA (Hons) Digital Media Technology, Birmingham City University

Grade Achieved—2:1

Modules Include:

- 3D Modelling and Animation
- Multimedia Design and Graphics
- Website Production

2014—2016 King Edwards VI Sheldon Heath Academy Sixth Form

- Level 3 Diploma in Applied Science and IT: Distinction

2009—2014 King Edwards VI Sheldon Heath Academy

- 8 B-C GCSE grades including Maths (C) and English (B)

EMPLOYMENT HISTORY

2019 — Birmingham Impact FC | U11-13 ’s Coach Volunteer

- ⇒ Coaching and motivating children to play football, offering advice on sporting performance and activity, encouraging tolerance and respect on the field, giving instruction on rules of the game and tactics for games against various opposing teams.
- ⇒ Come up with new fresh training drills to push their footballing skill level and aid their engagement.
- ⇒ I took it upon myself to design and develop a new responsive website for the club to give it a more slick and modern look with a much more user friendly feel.
- ⇒ In their first season as a team the U13’s placed 3rd, on top of that a young player was scouted for West Brom and is currently in their development team. Due to the club’s reputation and diversity policy an influx of players joined ranging from the age of 6-13. The club now has 2 teams placed in the Central Warwickshire League which are the U13’s & U11’s.

2019 — Amazon Fulfillment Centre | Sort & Receiving / Inbound Loader

- ⇒ My communication has improved a vast amount as it is a vital skill to have within a warehouse, as items can be damaged, people may be injured, conveyor belts may become jammed and managers need to be alerted for all of this plus many more.

2015 – 2017 MORRISONS | Sales Assistant/Stock

- ⇒ I had two roles one being sales assistant which was to help customers with any queries they had and serving customers with a smile. The second role I had was being a stock assistant, the role given was to re stack and fill shelves which helped build my organisational skills. Stock needed to be out within a certain amount of time to meet customer demands therefore making me more disciplined to meet deadlines whenever a task is given
- ⇒ Improved customer satisfaction rates by 5% from base year (2015) as me and my colleagues worked together to provide great customer service and work well under pressure during busy periods.
